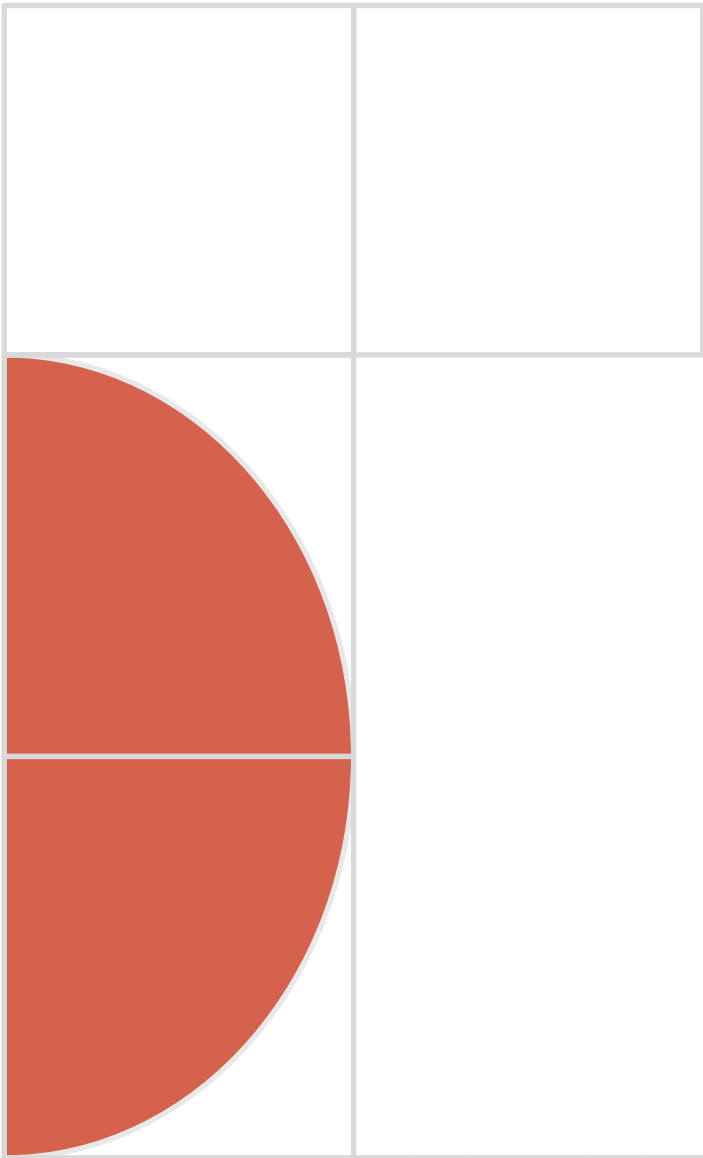
NEW IDEAS

to new ideas. To surprising designs. To the modern reinvention of classic shapes. To the creation of new concepts. To accessories that can completely transform furniture. To innovative materials with a fashionable finish. To minuscule details that can make a huge difference. To designers that leave their mark in everything that they do. To production processes that are respectful to both people and the planet. To simple set-ups that provide sophisticated results. To handles that open up a world of infinite possibilities in decoration. To those who dream them up and to those who create them.



Open The Door Of Happiness

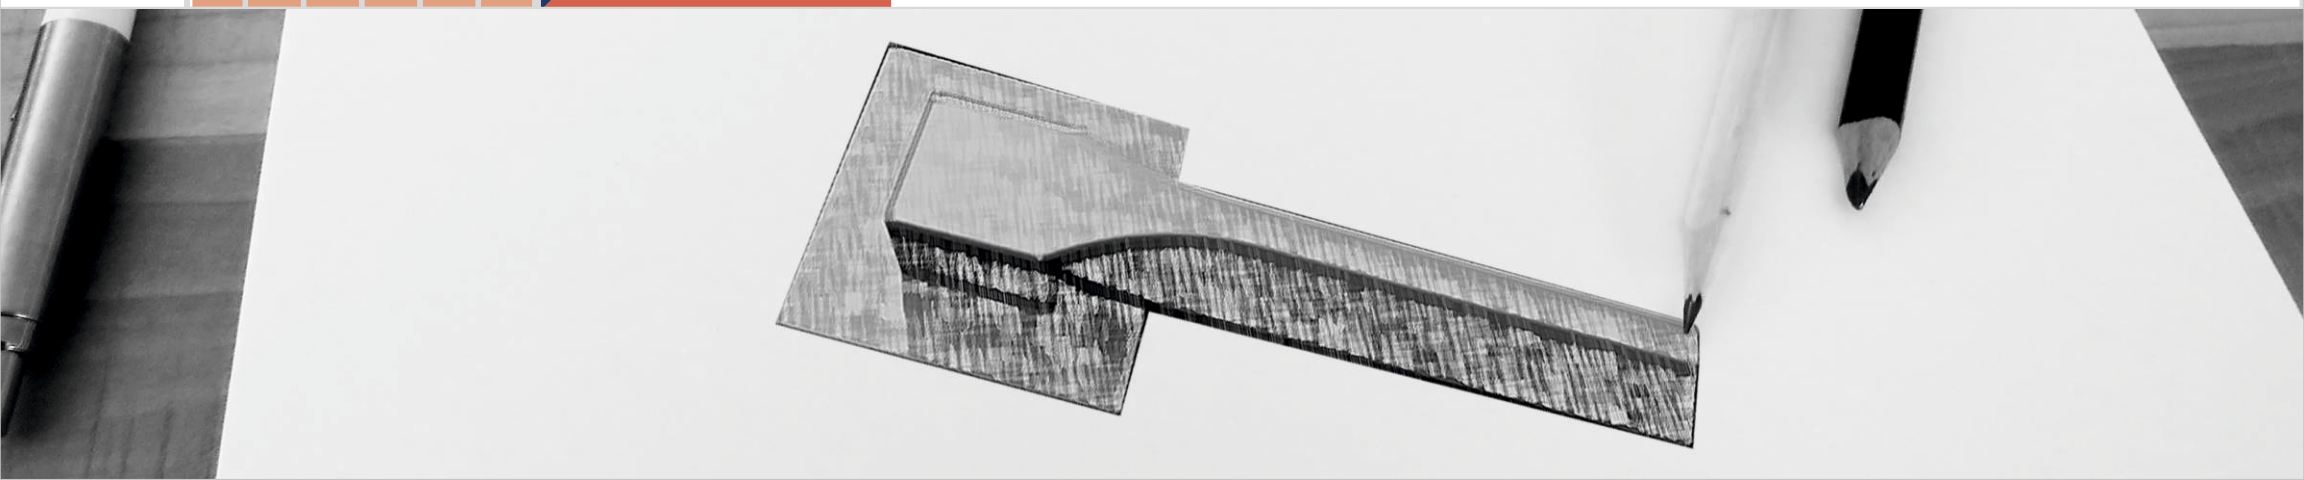
MADHURAM

MADHURAM is a preeminent and well-known name in the architectural hardware solutions for both residential and commercial projects. Over the years, we have successfully brought creativity, innovation, and personalized charm into all of our ventures.

All of our products are personally curated after valuable insights from our customers. This has helped us identify and create handles that satisfy the luxury need of the hour. We assure you of its rarity and quality, you won't find it anywhere else.

CREATIVE MOMENTS

Everything starts with an artistic phase, the moment in which the imagination is released and new forms are created, which define new trends. For contemporary handles, the designer is inspired by the architecture that surrounds him. Whilst for other handles they draw their inspiration from the most important ongoing artistic trends, to create something out of the box. Thus, maintaining the originality and authenticity of each product.



MADHURAM

10 years creating knobs and handles, we've decided to broaden our horizons and create our first line of wall hooks. They are accessories that add image and functionality to your walls. They decorate and bring order. They contribute and are transformative.

They are designs that follow the same line as our handles in many cases and combine with them to generate harmonious environments. They can be fitted easily and allow you to hang up all types of garments and accessories. They are practical and aesthetic, extremely original with optimal dimensions and innovative shapes. They have the mark of designers from all over the world who, just like us, dream without limits.

UP IN THE SKY

A TEAM WITH HISTORY AND TRUST

We are operating since 1995 with a course of continuous evolution and adaption to the economic and market challenges.

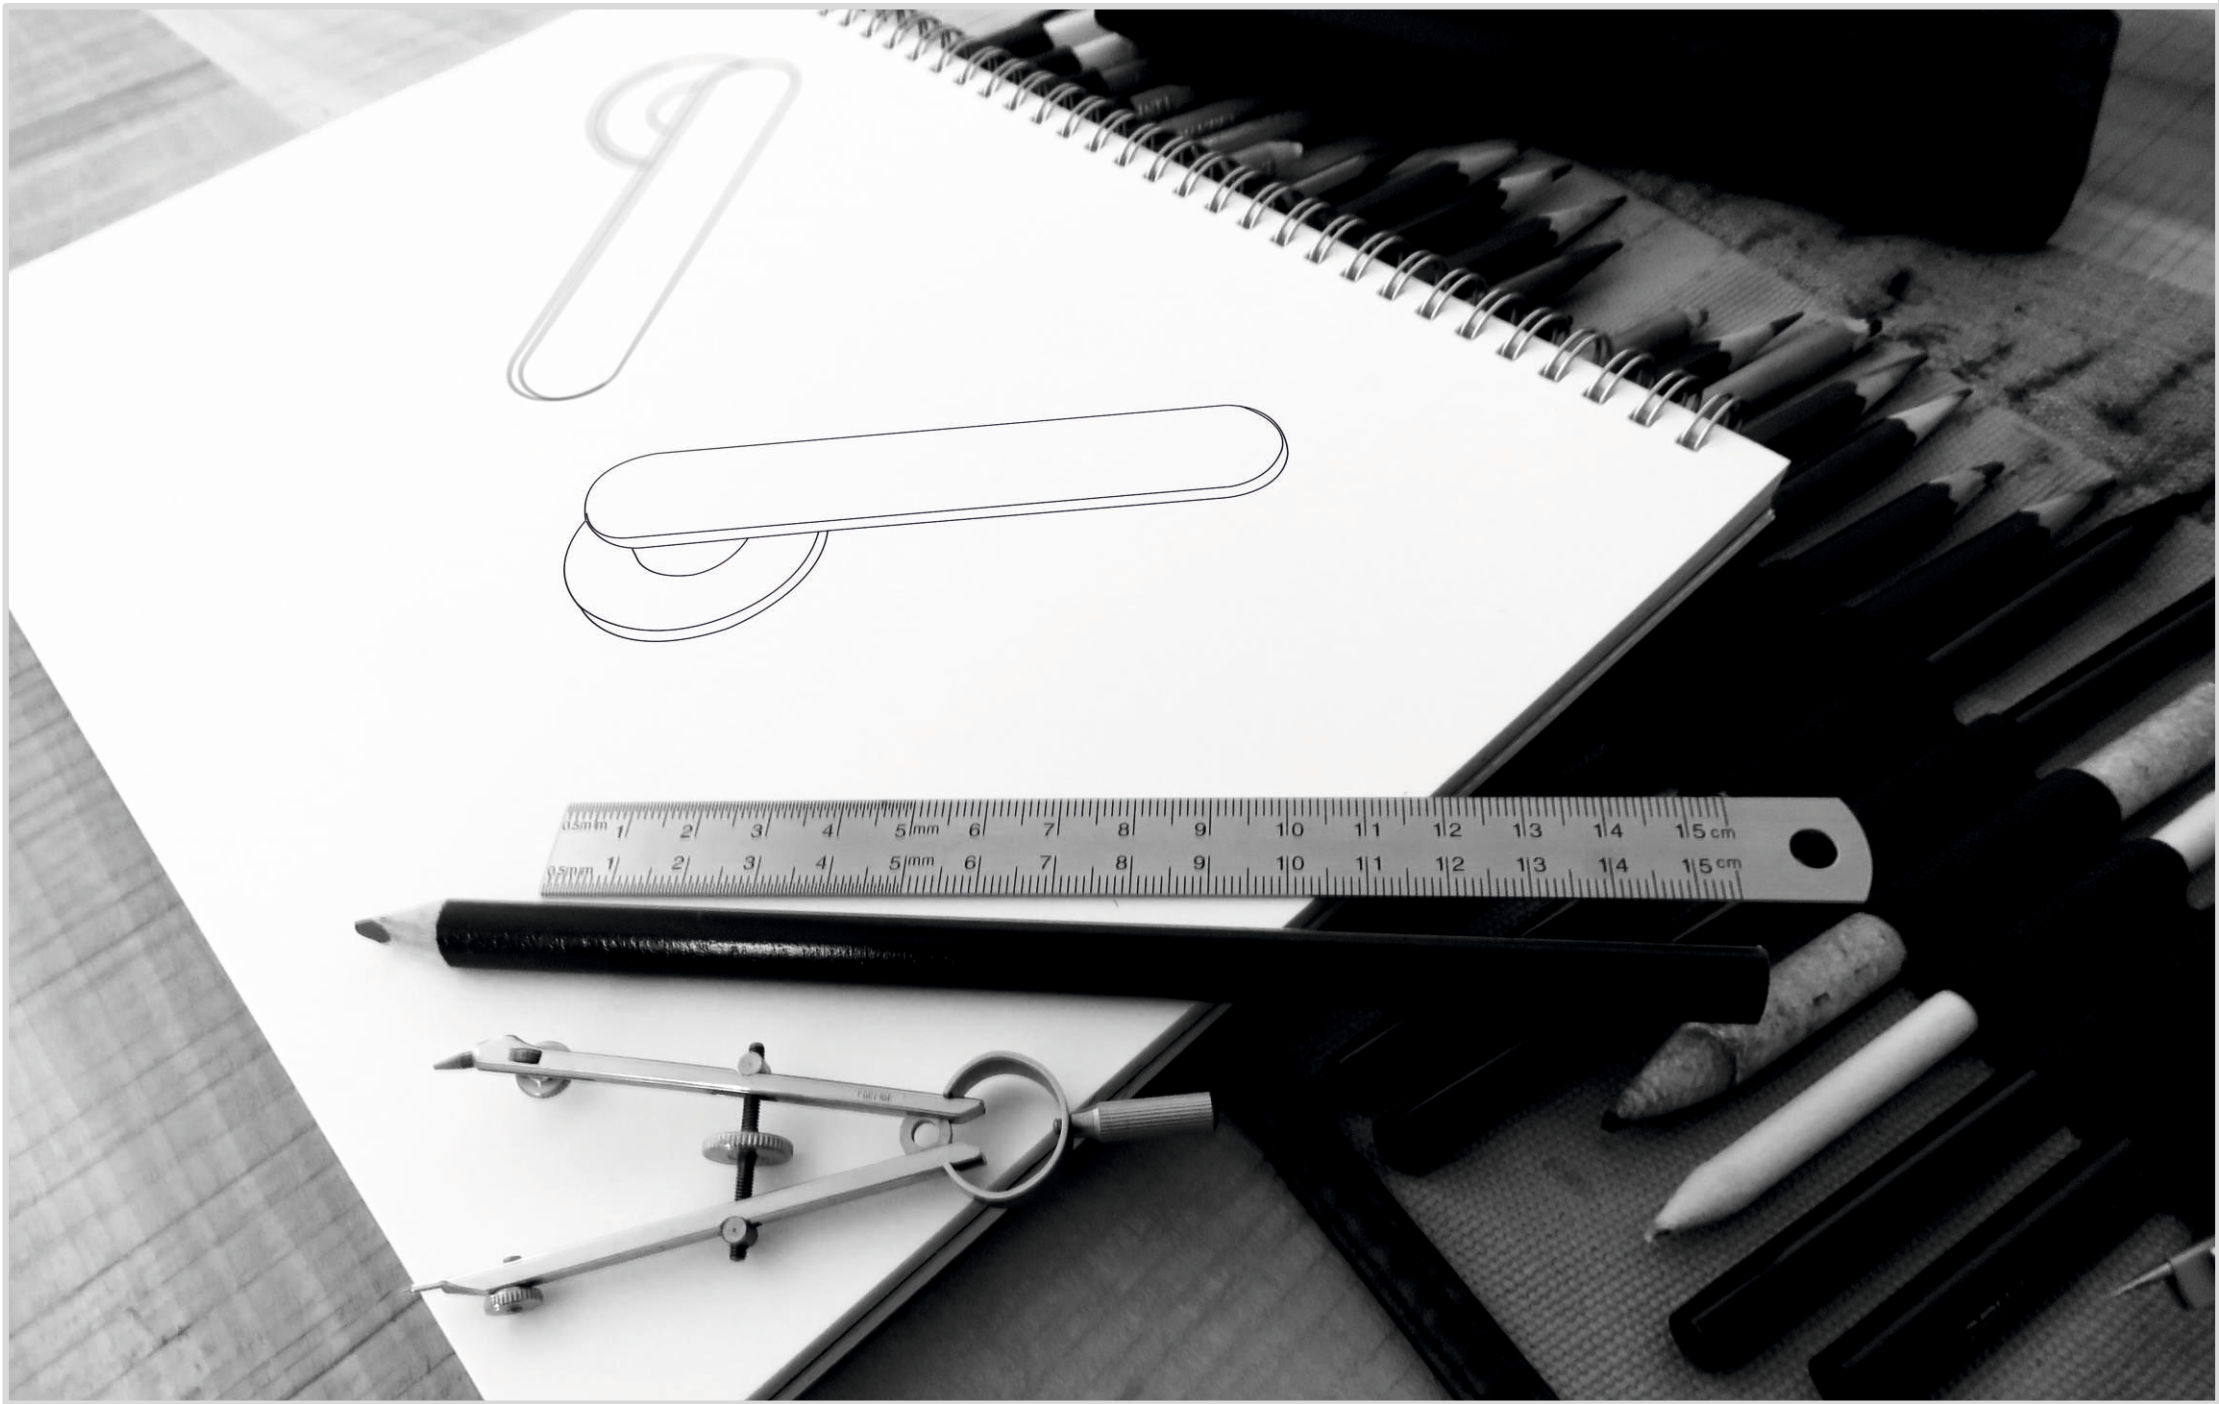
Our commitment to our customers is to ensure the perfect quality of service and assistance. Having confidence in a company is a status that is achieved through many years of experience and relationships with our customers.

PRODUCTION AND R&D.

OUR COMPANY HAS AS MAIN ACTIVITY THE PRODUCTION OF HARDWARE FOR FURNITURE AND BUILDING CONSTRUCTION. IN RECENT YEARS WE HAVE DEVOTED SPECIAL ATTENTION IN DEVELOPING HARDWARE THAT ADDRESS THE TRENDS OF CONTEMPORARY ARCHITECTURE.

We created a number of sectors of which we highlight the research and product development (R & D) has received numerous design awards in prominent magazines of the sector of decoration and architecture, both national and international.

Another important company sector is the commercial, establishing partnerships with other brands in the sector, giving us a great breadth and range of products that complement our production division.



DEVELOPING DESIGN

Developing and creating new designs has always been a tedious task, no matter the industry. It take immense strength and will to never up on your dreams. It is our immense passion and arduous hard work that keeps us moving and achieving our dreams for a better space. To be able to generate designs that meet the standards of both elegance and functionality is our end goal.

THE MECHANISM OF DESIGN

Design is a process that is a fusion of ideas coming from several minds and comes to life as a result after undergoing path breaking creativity and procedures. Designing comes to us in five different stages as stated popularly empathizing, defining, ideating, prototyping, and testing. We understand the need of our customers and then come up with a design that fulfils all the criteria and ticks all the check boxes. It is not up filling up a space, but more about creating an impact.
