

A close-up photograph of a person's lower legs and feet. They are wearing dark blue socks with a grey and black checkered pattern. The socks have a ribbed cuff at the top. The person is standing on a light-colored tiled floor. The background is a blurred, light-colored wall or curtain.

JOCKEY.

**MEN'S,
WOMEN'S &
JUNIORS SOCKS**

[TABLE OF CONTENTS](#)

FABRICS USED IN JOCKEY PRODUCTS

Elastane Body : Elastane is a synthetic fibre with exceptional elasticity (stretch). Blending this fibre with cotton makes the fabric stretch and revert to its original form (very similar to a rubber band). This provides the product with grip to hold on to the body while remaining extremely comfortable. Lycra is a brand of Elastane Stretch fabric.

Ultra Soft Modal : Like cotton, modal is a natural fibre derived from tree pulp making it more eco-friendlier than cotton. Modal is softer than cotton with better moisture wicking (absorption). The smooth modal fibres are easy-care and can achieve rich colours.

Stay Fresh : All the socks from Jockey are treated with STAY FRESH technology with antimicrobial properties to help you stay fresh throughout the day

Quick Dry : Quick dry finishes increase the speed of evaporation of moisture.
