JIECANG LINEAR MOTION--A RELIABLE PARTNER

AHEAD OF THE FIELD

JIECANG has promoted the industrialization and standardization of the domestic electrical lifting desks industry.

CUSTOMIZATION

With experienced engineering groups, JIECANG is able to customize for its customers innovation.

FINEST WORKMANSHIP

JIECANG pays extremely close attention to details to create the high-quality of products. We focus on research and design, the best raw materials, precise production as well as full extensive tests. A warranty for 5 years is provided.

INNOVATIVE RESEARCH

JIECANG has three R&D centers in Xinchang, Hangzhou and Taiwan with over 200 engineers. Over 400 projects were patented with the cooperation with European and American experts and famous institutions.

PRODUCTION CAPACITY

With fully automatic production lines, JIECANG is capable of timely delivery to domestic and foreign customers with million annual production scale.

GLOBAL BRANCHES

JIECANG has subsidiaries and production bases in Europe, America and Asia, aiming at meeting all our customers' requirements on time. Our services and quality have gained recognition in over 100 countries and thousands of customers worldwide.

STRONG SENSE OF SOCIAL DUTIES

JIECANG takes its corporate social responsibility seriously, which include philanthropic efforts, employee, tax and environmental issues, and give back to society, customers, stockholders and staffs.

INTELLIGENT CYBER SYSTEMS

Bluetooth 5.0 module is connected to the control box of each electric adjustable desk, which is combined with an intelligent gateway to realize the network of adjustable desks and unified controls, station booking, the adjustable desk uses data cloud management.

SMART BOOKING

The smart adjustable desk can be booked through a work card or a mobile phone. If the person leaves with his ID card or mobile phone, the booking will be automatically ended by the system, so that the desk will be updated to "available for booking" again.

VOICE CONTROL

JIECANG develops its own intelligent voice control system to control the operation of the electric adjustable desk.

MOBILE APP

Our APP provides the way to control the adjustable desks more intelligent and convenient. By Bluetooth or QR code scanning, you can change the height of desks, set the memory of the height, use the sedentary reminder and so on.

ANTI-COLLISION TECHNOLOGY

When the electric adjustable desk touches an object during operation, the anti-collision system will activate and immediately stop the movement of the table to prevent collision and injury to the user or the table itself.

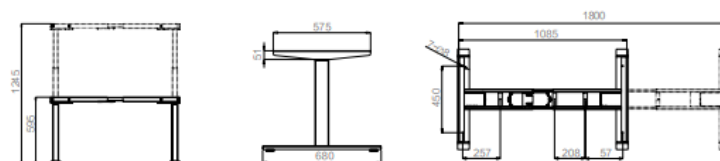

GREEN ENERGY-SAVING AND ENVIRONMENTAL PROTECTION

0.1W standby consumption: JIECANG applies advanced power management technology to all control boxes to reduce standby power consumption of the lifting system. PVC free: The cables for the adjustable desk of JIECANG are PVC free. We pay attention to environmental protection and your health.
