PRODUCTION PROCESS

All production processes: Mould Making, Casting, Grinding, Polishing, Electroplating and finally Pressure Testing & Assembly are performed under one roof to ensure performance & longevity of our products.

CASTING

We ensure Right Composition of Brass Ingots (60% Copper & 40% Zinc) containing less than 1% Lead providing strength to the inner body and Latest Modern Machinery is being used to achieve desired Quality Product.

TOOLING

Accuracy of a product defines quality. Our tool makers and modernized equipments make sure to achieve Great Quality & exceed customer expectations.

POLISHING

We use the best polish material available, and our craftsmen are quality oriented. This foundation of polishing leads to the spectacular finishing that you see in our products.

CHROME PLATING

Imported Chemicals are being used for Pre Electrolyte Cleaning Process in accordance with Environmental Standards.

TESTING & ASSEMBLY

To ensure performance & maintain Highest Quality Standards, All our products undergo numerous tests including 100% Body Break Test with air & water for Leak Proof Product.

PACKING

We are selling our products in eye-catching & attractive packaging. We have the latest equipment in packaging machinery including label printers, taping machines, bags closers, nailing machines, strapping machines, staplers, automatic sealers & stretch wrapping machines.
