JW SPORT

Since its birth in 2013, JW has been constantly pursuing innovation and excellence. With an extraordinary modern vision, it reinterprets the evolution and transformation of fitness equipment. Focusing on enhancing customer excellence, it elaborates on the definition of high-end fitness equipment and consolidates the classic brand status of JW fitness equipment. While pursuing excellence, JW also represents the attention and level of the current equipment manufacturing industry to details and quality, and continuously presents romantic, modern and passionate aesthetic concepts to users.

In nearly eight years, JW has successfully laid out in major cities in China and achieved great success in the Chinese fitness market. In high-end commercial fitness clubs, star-rated hotels and enterprises and institutions in mainstream cities, JW always provides customers with a higher value service system and better fitness equipment from the perspective of the essential needs of the market. The innovative and subversive design concept has gained extremely high recognition in the Asian fitness circle. It has led the trend in the field of high-end commercial fitness equipment. JW has always been committed to being a leader of international first-tier brands. It is determined to create a fitness equipment brand that can best meet essential needs.

JW SPORT TOWN

At JW SPORT TOWN, everyone here is creative, innovative, and motivated. This is the exact place where we make JW happen. We would love to have you at JW SPORT TOWN. The moment you land, you will be amazed by how we build the finest fitness equipment, and there is no doubt you will love this place.

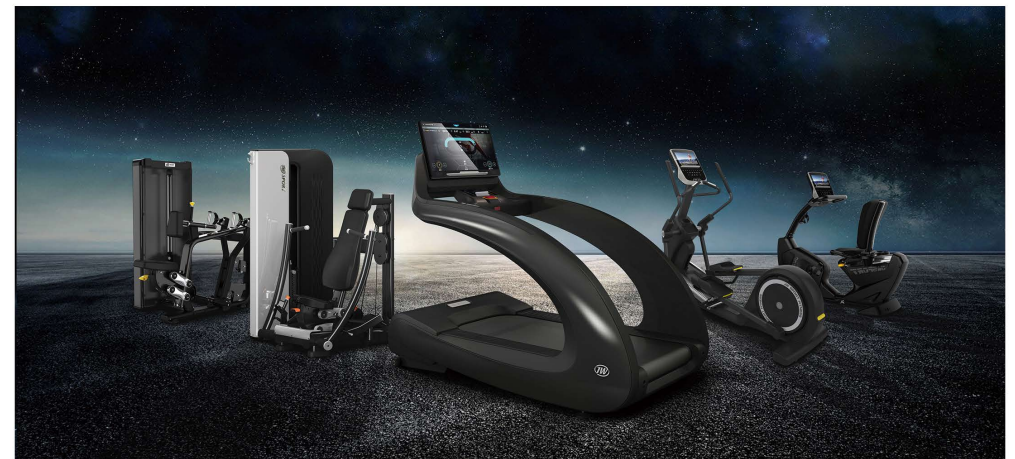

OUR PRODUCT

We carry all kinds of fitness equipment, covering aerobic equipment, strength machines and free weight benches etc. With elements of high standard, safety and innovation, we create many unique and popular products. This is how we take JW spirit into practice and make difference.

YS-880T

ARTHUR Commercial Treadmill

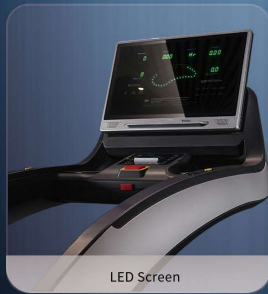

Elegant look with boundless, fully wrapped inverted handrails. Integrating excellent biomechanical Design allowing fitness centers and users to enjoy the benefits, while being in accordance with fashion design philosophy.

JW SPORT, A Strong Companion for Your Success.

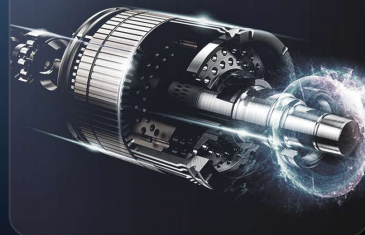

Touch Screen

LED Screen

Excellent Performance. Extraordinary

4.0 HP Powerful Motor.
High-powered driving system uncovers more physical potential.
Achieve breakthroughs easily, steadily and vigorously.

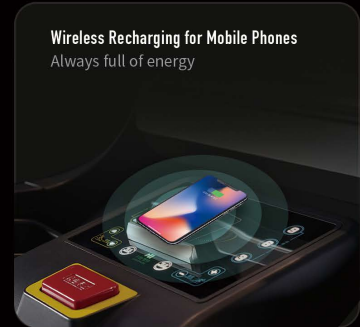

Stunning Appearance Vibrant

fully wrapped handrail design.
Integrate dynamic usability and nobility. Demonstrates sensual beauty

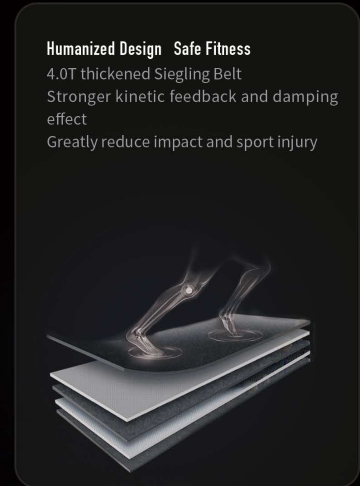

Exquisite Craft Ingenuity

Molds designed by inventive European partners
Detailed finishing with rigorousness and neatness
Quality demonstrated through small details

Wireless Recharging for Mobile Phones
Always full of energy

Humanized Design Safe Fitness

4.0T thickened Siegling Belt
Stronger kinetic feedback and damping effect
Greatly reduce impact and sport injury

Lift/Lower Screen with One Single Tap

Quality demonstrated through small details

Features

Display Type: 27" screen
Uprights: fully wrapped with plastic; steel frames
Running Belt: 4.0mm thickness;
Working temperature: -10~70°C
Running Board: Highest strength; 25mm thickness; static load capacity: 600KG/1323lbs.
Elevator motor: Voltage:200-240V; Output power:60W

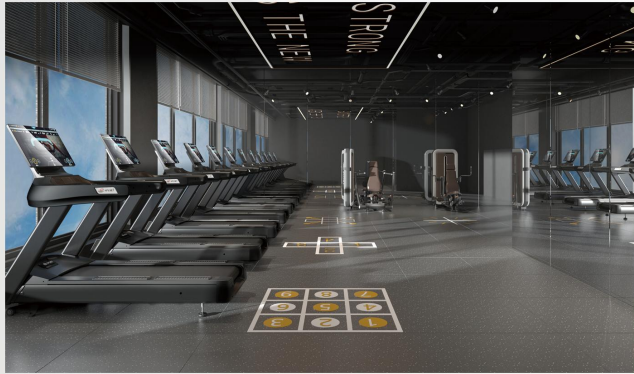

Running Belt: 580 mm (Width)22.8in
Main Motor: Rated power: 4.0HP (3.0KW)
Power Source: External power supply; AC 220V±10% (50Hz/60Hz)
Power Cord:16A AC 250V
Overload Protector: 13A
Static capacity: 150KG/330lbs

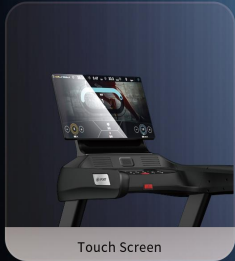

Unit Weight (LED console): 290kg/639lbs
Unit Weight (TFT console): 300kg/661lbs
Dimensions: (L*W*H) 2150*970*1850mm/84.6*38.2*72.8in
Running Surface: 580*1470 mm/22.8*57.9in

S-800

Commercial Treadmill

Sleek and elegant in appearance, with a powerful and restrained overall design, the high-tech design concept exudes a sense of nobility and uniqueness, while ensuring stability and safety during sports.

Touch Screen

LED Screen

The user manual

23.6-inch LED screen interface, multi-window display 32-inch touchscreen TFT monitor. TFT features a new year GAP capacity touchscreen with IPS full-view LCD screen. When the user presses a button, the touch space will play a click sound for simple operation and quick response.

Heart rate monitoring

Embedded heart rate sensor, real-time and accurate display of heart rate and calories, helping users stay in the fat burning, aerobic, or peak target zone for more effective cardio training and weight loss.

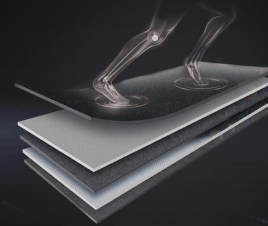

Entertainment functions

Supports installation of various Android version applications, USB interface, and WIFI wireless network support for various video online playback and picture browsing, supports MP4 format.

Weight-bearing treadmill

High-strength 25T running board, maximum static load 600KG, high-quality shock absorption design, suitable for runners of different weights and strides, ensuring safe and comfortable use for excellent fitness results.

Quick operation panel

Convenient control panel, one-key quick program switching, emergency stop and emergency brake buttons to ensure exercise safety.

M-9908EL

Elliptical

Touch Screen

LCD Screen

Function Parameters

User Interface	Extra-large high-precision screen is adopted to display resistance, speed, time and other readouts at all times and help you to monitor your workout status in real time.
Resistance System	Advanced ECB magnetic control resistance system are safer and more reliable.
Plate Supporting Structure	Aluminium alloy sliding rail, large diameter crown type bearing, and 8mm thickness high-strength steel plates.
Heart Rate Monitoring	Contact heart rate monitoring enables the user to measure heart rate at any time.
Kinesiology	International advanced technology makes movement trajectory completely conform with body structure and kinesiology principle.
Super Luxury	Super luxurious PU foam handlebar and environment-friendly TPR keys.
Unique Ramp Design	Unique ramp design; function of stair climber included.
Strengthened Support	3mm thickness strengthened steel tube supports console; which immensely enhances exercise stability and safety of supporting structure.

Basic Information

Display type	LED (default) /11.6" TFT (optional)
Unit Dimensions	2300*790*1810mm (L*W*H)90.5*31.1*71.2in
Resistance Range	0-15
Languages	English
Maximum Load	150kg/330lbs
Unit Weight	166 KG/365.2lbs
Incline range	0-15

M-5812

Indoor Bike

Handlebar and seat design which complies with the principle of human engineering and gearshift resistance adjustment enables users to get comfortable. Riding experience; frictionless Magnetic control mode prolongs the service life of the braking system.

M-5812

Indoor Bike

Function Parameters

Fore/aft adjustment of seat and free regulation of handlebar makes the ergonomically designed unit suitable for different users.

Adjustable pedals bring comfort during workouts.

The overall design of heavy flywheel and low center of gravity provides the user the feeling of better stability

High-strength pedals ensure workout safety.

The belt drive style brings dual-direction spinning and free options; transport wheels on base tubes make transportation easier and safer.

Gearshift resistance adjustment brings similar user experience as by a real road bicycle.

Frictionless magnetic control mode prolongs the service life of braking system.

Basic Information
