IN - SIDE BRAND STORY

ABOUT US

OVEL is one of the most exquisite inventions that make furniture more beautiful, functional and long lasting. While there is plethora of Laminate manufacturers, we present to you OVEL, the new entrant with latest technology and naturally appealing designs in laminates replacing wood.

OVEL, the company floated by a group of staunch and successful businessmen, seeks to enhance the aesthetics of application of MICA through superior designing, smart manufacturing and deep touches to consumers' needs and wants. While we are focused on meeting customer needs, we also view this business as an opportunity to save and revitalize the Environment. As more people use laminates of OVEL, there will be lesser need for cutting trees as our laminates fully and totally resemble natural wood effects.

VISION

Design and supply beautiful, high quality, laminates that adorn furniture of the world.

MISSION

- Design laminates that are unique and beautifully appealing.
- Supply consistently and as per specification of our customers, in time, quality and quantity every time.
- Satisfy every entity attached to our company and brand.

COMMITMENT

Commitment to quality of products is a limited concept at OVEL. We believe in a broader commitment concept where beyond customers and products, we want to be recognized for our commitment to our suppliers, financiers, architects, designers, builders, carpenters and consumers.

We are committed to listening to all of you and making changes such that we meet your changes as we progress on the path to global leadership in laminate manufacture and supply.

INDEX

ABSTRACT OR NATURE-INSPIRED SCULPTURES

Play an essential role in woodworking, crafting, and artistic projects. The roots of trees often have unique shapes, textures, and grain patterns that make them an excellent material
