LIMITED WARRENTY

- Kindly check the sheet in all aspects after purchasing & prior to cutting.
- In case of mfg. defects, only replacement of used sheet will be made
- No warranty for corner crack or air bubble.
- No claim will be entertained thereafter in any case of the specifics

LAYING INSTRUCTIONS

- Before Use ensure that the Surface or plywood and laminates is clean, dry, levelled and free of oils, excess moisture or other contaminants, such as dust, synthetic particles, etc.
- Only Use White PVA Adhesive to stick the sheets. Apply Double Layer of Adhesive on Edge (Min. 3-4 inch) of Both The Surfaces.
- The adhesive should always be Stirred before use. Sufficient adhesive should be applied on both of the surface. Don't add water into the adhesive, it makes the bonding weak.
- Once adhesive applied is thickly in nature (usually requires 5-10 minutes, depending on atmospheric conditions), the laminate should be placed on the surface, accurately aligned.
- Sufficient bonding procedure to ensure intimate contact necessary for an adequate bond
