BLAUPUNKT – MAKING ITS POINT, LOUD AND CLEAR.

Blaupunkt's meteoric rise started with a Blue Point. Back in 1923, when Germany woke up to the first sounds of a radio broadcast, it coincided with the birth of the Ideal Company in Berlin. The fledgling enterprise began its journey with the manufacture of Headphones, which were arduously tested by skilled technicians and labelled with a symbol of quality, the Blue Point.

Soon, customers only had to ask for the Blue Point Headphones and owing to its rising popularity, the symbol of quality became a trusted trademark. So much so, that the company even adopted it as its very own brand name in 1938. Today after so many decades, when one talks about the best and the most innovative name in Car Infotainment, Blaupunkt easily enjoys a sound edge over the rest.
